PERSONAL PROJECTS

Random Pictures Generator (09/2023 - 09/2023)
- In this project I used 'API'. With the help of this 'API' I can generate a new random image with a just click of a button. This project is totally built with 'Vanilla.js'.

Clock using Javascript (09/2023 - 09/2023)
- I made this project using HTML , CSS & Javascript. I learn a lot of thing while making this project, that how to use "new Date()" in javascript & fetch hour, minute, day, date etc .

Qoute Generator
- This is a Dynamic website it means javascript is used in this project "Yes" . I learned a lot from this project first I created an object of quotes and then I used "object.keys()" and also I used "Math.Random()" these two methods helped me a lot for achieving this.
